Different Ways to Program Crystals		
1.	Chanting the Intention	<i>Hold your cleansed crystal in your right palm, draw Reiki symbols over it with third eye. State the intention aloud if possible, alternatively you can whisper or say in mind. Keep chanting your intention and stay focused, keeping all your attention and intention to crystal. Suppose you need love, keep chanting 'Bring Love'. Keep that thought on hold for minimum 68 seconds. Repeat the process holding the crystal in left hand.</i>
2.	Reiki Charged	<i>Hold a cleansed crystal in non-dominant hand, draw symbols and put dominant palm over the crystal and Reiki the crystal with your intention. Again, keep the thought for 68 seconds to make the manifestation faster.</i>
3.	Third Eye	<i>Take a cleansed crystal, hold it over your third eye, not touching the third eye. Beam white light from your third eye into the crystal. If you know Reiki, beam the power symbol and the master symbol into the crystal with third eye. Think about your wish, imagine transferring your wish from your mind to the crystal. Envisage the desired outcome and place the crystal at your altar.</i>
4.	Tumbles together	<i>If there are many crystals for general use, place all crystals together, draw symbols on it and give Reiki with the intention- May these crystals spread their energy according to their all healing properties to heal me and my family on all levels and for our highest good. May it absorbs all impure energies and transmute it to light.</i>
5.	Visualization	<i>Hold crystal in your palms. Think about your wish, visualize it being fulfilled. Stay focused and keep visualize about your wish and desired outcome, about your reaction to it and how you would feel about it. Keep visualizing the full scenario.</i>
6.	Breathe Intention into Crystal	<i>Hold your crystal, be in meditative state and stay focused on your wish. As above, visualize the desired outcome. Take your crystal near mouth and blow with force on your crystal transferring your wish to crystal.</i>
